## CONFIDENCE

### What's so special about them?

M&S's first knicker range with anti-leak protection to give you confidence of freshness and protection through the day.

### Why would you wear them?

Minor incontinence – if you leak a little when you cough, sneeze, laugh or jump on a trampoline – you can wear these every day.

Periods – wear on its own without a pad or tampon on first day of your period, wear for added peace of mind on other days of your period.

-Wear heavy absorbency on heavier days of your period.

### How does it work?

- Triple layer gusset system.
- Layer next to the skin draws moisture away from the body.
- Middle layer has moisture absorbing capability.
- Outer layer has an anti-leak membrane to protect.
- Inner layer and mid layer have anti-odour technology.
- Patent pending.
- Developed for light and heavy leaks – developed to absorb 12ml of liquid for light and 20mm for heavy leaks.
- Gusset shape and size modified in order to catch leaks effectively
